

Stone Age & Bronze Age

Autumn

Think deeply about...

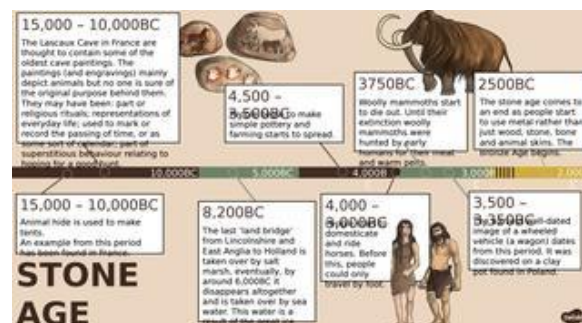

- How do we know about the Stone Age and Bronze Age?
- What can we learn from cave paintings?
- Would you rather live in your house or a Stone Age village?
- How is what we eat different to what people ate in the Stone Age?
- How did life change when people began to use metal?

Learn...

When the Stone Age and Bronze Age was and the eras of the Stone Age.
 Stone Age –When the first humans began to live in Europe. They used stones as tools.
 Bronze Age – In this era, metals were used to make hunting tools. Humans also began to farm land.
 Evidence of the Stone Age: look at the work of archaeologists and cave paintings
 How people lived: hunting and gathering to find food, making tools, building homes.
 How did life change throughout the Stone Age: move to settled communities and farming.
 What were important places: Stone Henge and Skara Brae.
 What came after the Stone Age: the Amesbury Archer and the Bronze Age.
